The above amendments to the specification are to clarify descriptions therein. No new matter has been added.

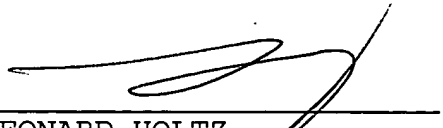

With respect to the amendment to the bottom of page 2 of the specification, the description of joining images obtained by moving a camera was originally described at page 3, lines 1 and 2 of the specification. The description from page 3, lines 1 and 2 has been rearranged and now appears at page 2, line 25.

The amendment to pages 19-20 is also to clarify a recitation therein, and does not involve new matter. The sentence beginning at page 19, line 27 has been rearranged for easier understanding.

As mentioned above, no new matter has been added. It is respectfully requested that the above amendments to the specification be approved and entered.

If the Examiner has any comments, questions, objections or recommendations, the Examiner is invited to telephone the undersigned at the telephone number given below for prompt action.

Respectfully submitted,
